BLUEPRINTRF™

Company Overview

Who We Are

Blueprint RF, a Cox Business company, is a leading managed network solutions provider focused exclusively on the hospitality industry.

We deliver innovative, secure, and high-performance guest internet experiences for hotels and resorts across the U.S.

What We Deliver

Blueprint RF offers a fully managed WiFi ecosystem, purpose-built to meet the dynamic demands of hospitality venues. Our comprehensive services help ensure seamless, reliable connectivity for both guests and property staff, while relieving hotel IT teams of the burden of managing complex networks.

Core Deliverables

Property-Wide Managed WiFi
High-speed connectivity across guest rooms, meeting spaces, common areas, and back-of-house.

Network Monitoring & Support
24/7/365 proactive monitoring and U.S.-based technical support.

Custom Portal Design
Branded splash pages and tailored guest experiences.

Bandwidth Management
Intelligent traffic shaping ensures optimal performance.

Compliance & Safety
Secure configurations to help protect sensitive guest data and maintain PCI compliance.

Customer Value

Improved Guest Satisfaction
Fast, reliable internet access drives loyalty and good reviews.

Reduced IT Workload
Full-service network management lets staff focus on guest services.

Future-Ready Infrastructure
Scalable, cloud-based design evolves with tech requirements.

Brand-Approved Solutions
Trusted by major brands for meeting or exceeding key standards.
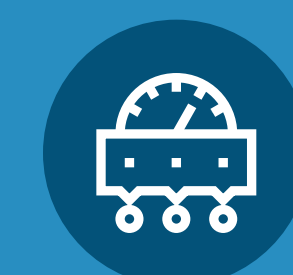

Transparent Reporting
Real-time dashboards and performance metrics for total visibility.

Blueprint Tools

Blueprint RF Dashboard
Real-time stats, device visibility, and performance reporting.

Bandwidth Shaping Engine
Prioritizes traffic and limits non-essential usage smartly.

Guest Session Tracker
Monitor and manage user sessions for security and usage insights.

Support Console
Tools for remote diagnostics, configuration, and system health checks.
