

Business Center Solutions

Let your guests connect on the go. Without the security hassles.

When your guests are ready to connect, they don't want to wait. So give them a business center solution that's hassle-free for them, and worry-free for you.

Our SmartCenter solution provides a personalized and secure platform for each of your guests to access the internet. Meet their needs and protect their security with:

Here Are Some Of The Features:

- ✔ Session-to-Session Cleaning Security Suite Software
- ✔ Advanced Dell OptiPlex PCs Featuring Optional Touch-Screen Technology, a Fully Customizable Portal Page and "Hotel Concierge" Apps, Such as Microsoft Office, Optional Links to Local Services and Information
- ✔ Secured USB Ports for Safe Client Printing
- ✔ Each PC Has Wired or Wireless Capability

We can design each SmartCenter to meet your venue's unique and "dedicated" needs, such as one-step boarding pass management, weather services for flight planning, and local services concierge. And, of course, we provide 24/7/365 SmartCenter monitoring and technical support services (remote and/or onsite).
